Thomas at Tidmouth Sheds Set

Young engine drivers can control Thomas' every move with a remote control as he chugs his way through Track Master's intricate scenery and buildings on the new look track. A touch of the controller and the child can send Thomas forward or, for the first time, backwards! Fans can watch Thomas' facial expression change as he travels through the cave or twist the turntable to allow Thomas to enter Tidmouth Sheds for a well earned rest from his travels. Watching all the action is Harold the Helicopter who keeps an eye on everything from his helipad.
